## SKILLS

- Threat Intelligence
- Vulnerability Assessment
- Incident Response Planning
- Security Auditing
- Security Training
- Risk Management

## EDUCATION

**BACHELOR OF SCIENCE IN  
CYBERSECURITY - CITY COLLEGE**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Achieved a 40% reduction in vulnerabilities through targeted security initiatives.
- Recognized for exceptional performance in incident response during a security breach.
- Developed a comprehensive training program that increased employee awareness by 50%.

# Michael Anderson

## PURPLE TEAM ENGINEER

Strategic and analytical Purple Team Engineer with over 6 years of experience in cybersecurity, focusing on enhancing organizational resilience against cyber threats. My expertise lies in developing and implementing robust security frameworks that integrate both offensive and defensive security practices. I am passionate about threat intelligence and proactive security measures, which enable organizations to stay one step ahead of attackers.

## EXPERIENCE

### PURPLE TEAM ENGINEER

Guardian Cyber Solutions

2016 - Present

- Collaborated with security teams to conduct regular red and blue team exercises.
- Developed comprehensive threat intelligence reports to inform strategic decisions.
- Assisted in the creation and implementation of incident response plans.
- Utilized various security tools for penetration testing and vulnerability scanning.
- Documented security findings and communicated them to stakeholders effectively.
- Participated in security awareness initiatives to educate staff on best practices.

### CYBERSECURITY ANALYST

SafeNet Technologies

2014 - 2016

- Monitored and analyzed security alerts to detect potential threats.
- Conducted vulnerability assessments and provided remediation recommendations.
- Contributed to security policy development and compliance efforts.
- Engaged in incident response activities and post-incident analysis.
- Developed training materials to promote security best practices among employees.
- Collaborated with IT teams to enhance security configurations and controls.
