

MICHAEL ANDERSON

LEAD QUALITATIVE RESEARCHER

PROFILE

I am an accomplished Qualitative Researcher with a decade of experience focused on the healthcare sector. My expertise lies in understanding patient experiences and healthcare provider interactions. Through rigorous qualitative methodologies, I have been able to uncover deep insights that inform health policy and improve patient care. I have facilitated numerous focus groups and conducted comprehensive interviews to gather rich qualitative data.

EXPERIENCE

LEAD QUALITATIVE RESEARCHER

Health Solutions Group

2016 - Present

- Directed qualitative research initiatives assessing patient satisfaction and healthcare access.
- Conducted over 75 in-depth interviews with patients and healthcare professionals.
- Developed comprehensive reports that influenced policy changes at the organizational level.
- Facilitated focus groups to explore barriers in healthcare delivery.
- Utilized software tools for thematic analysis, enhancing the depth of insights.
- Presented research findings to stakeholders, driving strategic health initiatives.

QUALITATIVE RESEARCH ANALYST

Wellness Insights LLC

2014 - 2016

- Supported qualitative research in evaluating community health programs.
- Conducted ethnographic studies to capture patient narratives and experiences.
- Analyzed qualitative data leading to actionable recommendations for program improvement.
- Collaborated with interdisciplinary teams to integrate qualitative findings into quantitative studies.
- Managed project timelines and deliverables, ensuring adherence to budget constraints.
- Engaged with community stakeholders to gather insights and feedback.
