## SKILLS

- Cloud Testing
- Automation
- Performance Testing
- JMeter
- Agile
- QA Documentation

## EDUCATION

**BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, UNIVERSITY OF WASHINGTON, 2016**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Achieved a 30% reduction in production defects through rigorous testing protocols.
- Recognized with a team award for excellence in quality assurance in 2020.
- Successfully implemented a continuous integration process that improved deployment times by 25%.

# Michael Anderson

## SENIOR QA ENGINEER

As a Quality Assurance Engineer with a specialization in cloud-based applications, I have over six years of experience in the tech industry, focusing on delivering high-quality software solutions. My expertise lies in developing automated testing frameworks and conducting performance testing to ensure scalability and reliability. I have a strong background in Agile methodologies, which allows me to effectively collaborate with cross-functional teams and adapt to fast-paced development environments.

## EXPERIENCE

### SENIOR QA ENGINEER

Cloud Solutions Inc.

2016 - Present

- Developed and maintained automated testing frameworks for cloud applications, improving testing efficiency by 50%.
- Conducted performance testing using JMeter, resulting in a 40% improvement in application responsiveness.
- Collaborated with development teams to ensure adherence to best practices in coding and testing.
- Mentored junior QA engineers and conducted training sessions on automation tools.
- Participated in Agile ceremonies to align QA efforts with development goals.
- Documented test cases and results for compliance and auditing purposes.

### QA ENGINEER

Tech Innovations LLC

2014 - 2016

- Executed manual and automated tests on cloud-based applications to ensure quality and performance.
- Tracked defects using JIRA, achieving a 92% defect resolution rate within the sprint.
- Participated in sprint planning and reviews to provide QA insights.
- Assisted in the development of testing documentation and reports for stakeholders.
- Conducted regression tests for new releases to ensure stability.
- Engaged with customer support teams to address user-reported issues and gather feedback.
