MICHAEL ANDERSON

QUALITY ENGINEER

Dynamic Quality Systems Engineer with over 5 years of experience in the automotive industry, focused on enhancing production quality and efficiency. I have a strong foundation in quality management principles and a passion for utilizing data-driven approaches to solve problems. My experience includes developing quality assurance protocols and leading root cause analysis initiatives to minimize defects in manufacturing processes.

PROFESSIONAL EXPERIENCE

AutoTech Solutions

Mar 2018 - Present

Quality Engineer

- Implemented quality control measures that reduced defects by 20% in production.
- Conducted regular quality audits and provided actionable feedback.
- Collaborated with engineering to adjust designs based on quality findings.
- Facilitated training workshops on quality standards for production staff.
- Developed metrics to monitor and report quality performance.
- Managed supplier quality assessments to ensure compliance with specifications.

Drive Dynamics

Dec 2015 - Jan 2018

Junior Quality Engineer

- Assisted in the development of quality assurance documentation and procedures.
- Performed inspections and tests on incoming materials and finished products.
- Participated in failure mode and effects analysis (FMEA) to identify potential risks.
- Supported continuous improvement projects that enhanced quality metrics.
- Maintained quality records and documentation for compliance audits.
- Contributed to team meetings with insights on quality improvement strategies.

ACHIEVEMENTS

- Contributed to a project that improved production efficiency by 15%.
- Recognized for my role in a successful ISO 9001 certification process.
- Received commendation for outstanding teamwork and quality contributions.
