📍 San Francisco, CA

EDUCATION

Bachelor's in Computer Science

University of Washington

2016-2020

SKILLS

- Quantum Software Development
- User Experience Design
- Programming (Python
- C++)
- Agile Methodologies
- Collaboration
- Technical Support

LANGUAGES

- English
- Spanish
- French

Proficient Quantum Computing Engineer with a focus on quantum software development and applications. Extensive experience in creating software solutions that leverage quantum computing capabilities for various industries, including finance and healthcare. Demonstrated ability to design user-friendly interfaces and robust algorithms that facilitate efficient quantum computations. Committed to continuous improvement and innovation in quantum software development processes.

💼 WORK EXPERIENCE

Quantum Software Developer
2020-2023

Quantum Software Solutions

- Designed and developed quantum applications for financial modeling.
- Collaborated with UX designers to create intuitive software interfaces.
- Implemented algorithms to optimize quantum computations.
- Conducted user testing to enhance software functionality.
- Participated in code reviews to ensure software quality.
- Provided technical support to clients on quantum software usage.

Software Engineer
2019-2020

Innovative Tech Solutions

- Developed software solutions for data analysis in healthcare.
- Collaborated with cross-functional teams to enhance software performance.
- Conducted testing and debugging to ensure software reliability.
- Presented software demonstrations to potential clients.
- Assisted in the development of project timelines and deliverables.
- Participated in training sessions to improve team skills.

★ ACHIEVEMENTS

- Increased software efficiency by 35% through algorithm optimization.
- Recognized as Employee of the Month for outstanding project contributions.
- Contributed to a software solution that improved client satisfaction ratings by 20%.
