WORK EXPERIENCE

Technology Integration Specialist

2020-2023

RailTech Innovations

- Led technology integration projects aimed at modernizing rail operations and enhancing safety measures.
- Collaborated with IT teams to develop and implement advanced tracking systems for rail assets.
- Conducted assessments of existing technologies and recommended upgrades for improved performance.
- Trained staff on new systems and technology applications to ensure effective utilization.
- Monitored project progress and reported outcomes to senior management.
- Engaged with industry partners to explore innovative solutions for rail transport challenges.

Project Coordinator

2019-2020

Smart Rail Solutions

- Coordinated technology projects focused on enhancing operational efficiency and passenger safety.
- Developed project plans that aligned with organizational goals and technology trends.
- Engaged with stakeholders to gather requirements and ensure project alignment.
- Monitored project budgets and timelines to ensure on-time delivery.
- Facilitated training sessions on new technologies to enhance staff proficiency.
- Prepared project documentation and presentations for executive review.

ACHIEVEMENTS

- Successfully implemented a new tracking system that reduced asset loss by 20%.
- Recognized for outstanding contributions to technology-driven projects in the rail sector.
- Developed a training program that improved staff proficiency in new technologies by 30%.
