EDUCATION

Bachelor of Science in Environmental Engineering

University of Florida
2016-2020

SKILLS

- environmental engineering
- system design
- community outreach
- project management
- site assessment
- performance monitoring

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Rainwater Harvesting Engineer

2020-2023

GreenTech Engineering

- Designed and installed rainwater harvesting systems for over 100 residential properties.
- Conducted site assessments to evaluate potential for rainwater collection.
- Collaborated with local contractors to ensure timely project completion.
- Developed maintenance schedules to ensure system longevity.
- Monitored system performance and made necessary adjustments for optimization.
- Engaged with homeowners to educate them on system benefits and usage.

Community Outreach Coordinator

2019-2020

Water Conservation Network

- Coordinated educational programs focused on the benefits of rainwater harvesting.
- Engaged with community organizations to promote sustainability initiatives.
- Developed promotional materials to increase community awareness.
- Facilitated workshops and seminars to educate citizens on water conservation.
- Conducted surveys to gather feedback on community needs and project effectiveness.
- Collaborated with local schools to integrate water conservation education into curricula.

ACHIEVEMENTS

- Increased community participation in rainwater harvesting programs by 60%.
- Received a commendation for excellence in promoting water conservation education.
- Authored a guidebook on best practices for residential rainwater harvesting.
