### ACHIEVEMENTS

- Successfully led a project that won the 'Best Mobile App' award at the Annual Tech Conference.
- Increased app download rates by 50% through effective marketing strategies.
- Received positive feedback from users, achieving a 4.9-star rating on app stores.

### PROFILE

An experienced React Native Developer with a focus on e-commerce applications, I have spent over 4 years designing and developing mobile solutions that enhance customer shopping experiences. My expertise lies in creating user-friendly interfaces and implementing robust backend services to ensure seamless transactions. I have a strong background in working with cross-functional teams to deliver high-quality products that meet business objectives.

### EXPERIENCE

#### REACT NATIVE DEVELOPER

##### E-Shop Solutions

2016 - Present

- Developed a mobile application for an e-commerce platform, boosting sales by 40% in the first six months.
- Implemented a secure payment gateway, ensuring compliance with PCI DSS standards.
- Collaborated with marketing teams to integrate promotional features, increasing user acquisition by 20%.
- Optimized app performance through code refactoring, reducing load times by 30%.
- Utilized Google Analytics to track user behavior, informing feature enhancements.
- Participated in daily stand-ups and sprint reviews to align project goals with business needs.

#### JUNIOR MOBILE DEVELOPER

##### Web Ventures

2014 - 2016

- Assisted in the development of a mobile shopping app, contributing to a 15% increase in customer retention.
- Wrote unit tests to ensure code reliability and reduce bugs by 25%.
- Conducted user testing sessions to gather feedback for app improvements.
- Integrated social media sharing options, enhancing user engagement.
- Collaborated with backend developers to optimize API calls, improving app responsiveness.
- Documented development processes and user guides to streamline onboarding of new team members.
