# MICHAEL ANDERSON

## HEALTH TECHNOLOGY ASSESSMENT SPECIALIST

Results-driven Real World Evidence Researcher with over 6 years of experience in health technology assessment and outcomes research. My expertise lies in evaluating the real-world impact of medical interventions and ensuring that patient perspectives are integrated into the decision-making process. I have successfully led numerous projects that assess treatment effectiveness, medication adherence, and patient-reported outcomes.

## **PROFESSIONAL EXPERIENCE**

### **Innovative Health Solutions**

*Mar 2018 - Present*

Health Technology Assessment Specialist

- Conducted assessments of medical technologies to evaluate clinical and economic effectiveness.
- Collaborated with clinical teams to gather real-world data on treatment outcomes.
- Utilized Excel and SQL for data analysis and reporting.
- Facilitated workshops to engage stakeholders in discussing research findings.
- Developed comprehensive reports and presentations for various audiences.
- Implemented best practices in data collection and analysis to enhance quality assurance.

### **Care First Analytics**

*Dec 2015 - Jan 2018*

Outcomes Research Analyst

- Analyzed patient data to evaluate the effectiveness of chronic disease management programs.
- Managed research projects from inception to completion, ensuring timely delivery.
- Conducted surveys to gather patient-reported outcomes and experiences.
- Presented findings to healthcare providers, contributing to quality improvement initiatives.
- Worked with IT teams to optimize data management processes.
- Authored publication-ready manuscripts detailing research outcomes.

## **ACHIEVEMENTS**

- Contributed to a study that received national recognition for its innovative approach.
- Improved data collection efficiency by implementing new digital tools.
- Successfully presented findings to the National Health Board, influencing policy.
