WORK EXPERIENCE

Rebar Installer

2020-2023

Prime Construction Services

- Installed rebar for concrete slabs and structural components.
- Ensured compliance with project specifications and safety protocols.
- Utilized tools for cutting and bending rebar to required specifications.
- Maintained accurate records of materials and labor used.
- Collaborated with site supervisors to ensure project alignment.
- Participated in safety training and compliance audits.

Construction Assistant

2019-2020

BuildRight Group

- Assisted in the preparation and setup of rebar for various construction projects.
- Followed safety guidelines to maintain a secure work environment.
- Engaged in team discussions to facilitate project planning.
- Maintained tools and equipment to ensure operational effectiveness.
- Monitored project progress and reported to supervisors.
- Participated in training programs to enhance construction skills.

ACHIEVEMENTS

- Contributed to the successful completion of a major civil project ahead of schedule.
- Received commendation for dedication to safety and quality.
- Participated in a team that improved rebar installation efficiency by 15%.
