

Michael ANDERSON

RED TEAM LEAD

Dedicated Red Team Engineer with over 7 years of experience in cybersecurity, focusing on offensive security and threat intelligence. Highly skilled at simulating advanced persistent threats to assess the effectiveness of security measures. Proven ability to work collaboratively with cross-functional teams to enhance overall security posture. Experienced in developing and executing red teaming strategies that align with business objectives.

WORK EXPERIENCE

RED TEAM LEAD

Fortress Cybersecurity

2020 - 2025

- Led red team operations, conducting simulated attacks to evaluate the effectiveness of security defenses.
- Utilized advanced tools and techniques to assess vulnerabilities and develop remediation strategies.
- Collaborated with incident response teams to improve detection and response capabilities.
- Conducted training sessions for technical staff on emerging threats and security practices.
- Delivered detailed findings and recommendations to stakeholders, influencing security policies.
- Developed a framework for continuous improvement based on red team assessments.

SENIOR SECURITY CONSULTANT

InfoSecure Solutions

2015 - 2020

- Conducted comprehensive security assessments for clients across various industries.
- Developed tailored red team exercises to simulate real-world attack scenarios.
- Provided actionable recommendations to enhance clients' security postures.
- Engaged in threat intelligence analysis to identify emerging risks and vulnerabilities.
- Participated in security awareness campaigns to educate clients on cybersecurity best practices.
- Contributed to the development of internal processes for red team engagements.
