SKILLS

- Web Application Security
- Penetration Testing
- Vulnerability Assessment
- Incident Response
- Security Awareness Training

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION SYSTEMS, TECH INSTITUTE

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Achieved a 70% reduction in critical vulnerabilities in client applications through targeted assessments.
- Recognized for outstanding performance in delivering security assessments and reports.
- Contributed to an award-winning security awareness program for clients and employees.

Michael Anderson

RED TEAM SPECIALIST

Results-driven Red Team Engineer with over 6 years of experience in cybersecurity, specializing in web application security and penetration testing. Adept at identifying vulnerabilities and providing actionable recommendations to enhance security measures. Strong communication skills enable effective collaboration with technical and non-technical teams. Experienced in conducting thorough assessments and delivering comprehensive reports that influence security decision-making.

EXPERIENCE

RED TEAM SPECIALIST

WebSecure Inc.

2016 - Present

- Conducted penetration tests on web applications, identifying critical vulnerabilities and security gaps.
- Utilized tools like OWASP ZAP, SQLMap, and Burp Suite to execute tests and analyze results.
- Collaborated with development teams to implement secure coding practices based on findings.
- Developed detailed reports that provided insights and actionable recommendations to stakeholders.
- Engaged in continuous learning to stay ahead of emerging web security threats.
- Presented findings at security conferences, raising awareness about web application vulnerabilities.

SECURITY CONSULTANT

CyberSafe Solutions

2014 - 2016

- Performed security assessments for various clients, focusing on web application and network security.
- Assisted in developing security policies that align with industry standards and compliance requirements.
- Supported incident response efforts by analyzing security incidents and notifying clients of vulnerabilities.
- Contributed to internal security training programs for employees on web security best practices.
- Participated in the creation of a security awareness campaign targeting employees and clients.
- Developed a comprehensive guide on web application security for internal use.
