WORK EXPERIENCE

Junior Red Team Engineer

2020-2023

SecureTech Systems

- Assisted in conducting penetration tests and vulnerability assessments on client systems.
- Utilized tools such as Metasploit and Nmap to identify security flaws and vulnerabilities.
- Collaborated with senior engineers to develop remediation strategies for identified issues.
- Participated in red team exercises to simulate real-world attacks and assess security defenses.
- Documented findings and provided detailed reports to stakeholders for review.
- Engaged in training sessions to improve knowledge of security best practices.

IT Security Intern

2019-2020

CyberGuard Corp

- Supported the security team in conducting vulnerability assessments and penetration tests.
- Assisted in the development of security policies and procedures.
- Participated in incident response activities and contributed to post-incident analysis.
- Engaged in security awareness initiatives to educate employees on cybersecurity practices.
- Conducted research on emerging threats and vulnerabilities in the cybersecurity landscape.
- Contributed to the creation of security documentation for internal use.

ACHIEVEMENTS

- Successfully identified and reported critical vulnerabilities during assessments, leading to prompt remediation.
- Contributed to a significant improvement in security awareness among employees through training sessions.
- Recognized for exceptional performance during red team exercises, enhancing overall security posture.
