Strategic Regenerative Medicine Scientist with a focus on commercialization and market access for innovative therapies. With over 11 years of experience working in both research and business development roles, I possess a unique blend of scientific expertise and commercial acumen. Skilled in developing business strategies that align scientific innovations with market needs, facilitating the successful launch of regenerative therapies.

WORK EXPERIENCE

Business Development Scientist | Regenerative Innovations LLC

Jan 2022 – Present

- Developed and executed business strategies for the commercialization of regenerative therapies, resulting in a 35% increase in market penetration.
- Identified and established partnerships with healthcare providers and research institutions, expanding the company's network.
- Conducted market research to identify trends and opportunities, informing product development strategies.
- Collaborated with scientific teams to translate research findings into viable business opportunities.
- Presented business proposals to executive leadership, securing funding for new projects.
- Maintained relationships with key stakeholders to ensure ongoing support for product development initiatives.

Research Scientist | Therapeutic Solutions Inc.

Jul 2019 – Dec 2021

- Conducted research on stem cell applications for cardiovascular diseases, contributing to a new therapeutic approach.
- Collaborated with clinical teams to design and implement studies, ensuring alignment with commercial goals.
- Analyzed data sets to evaluate treatment outcomes, supporting the development of clinical protocols.
- Published research findings in peer-reviewed journals, enhancing the company's scientific credibility.
- Engaged in interdisciplinary collaborations, promoting innovation and knowledge exchange.
- Presented at industry conferences, raising awareness of the company's pioneering research efforts.
