EDUCATION

MASTER OF ENVIRONMENTAL SCIENCE,
GREEN UNIVERSITY

ACHIEVEMENTS

- Developed a community resilience framework adopted by multiple NGOs for disaster response.
- Presented research at international conferences, contributing to global discourse on sustainability in humanitarian efforts.
- Secured a grant for a pilot project aimed at enhancing community resilience through innovative assessments.

PROFILE

Accomplished Relief Impact Assessment Analyst with a robust background in environmental sustainability and community resilience. Demonstrated proficiency in utilizing data-driven methodologies to assess the effectiveness of humanitarian interventions, ensuring alignment with sustainable development goals. Expertise in stakeholder engagement and cross-sector collaboration, fostering community empowerment in disaster-prone areas. Proven ability to analyze complex datasets and derive actionable insights for program improvement.

EXPERIENCE

IMPACT EVALUATION COORDINATOR

Sustainable Development Initiative

2016 - Present

- Coordinated multi-stakeholder assessments to evaluate the impact of sustainable development projects.
- Developed indicators for measuring community resilience post-disaster.
- Facilitated workshops to engage community members in the assessment process.
- Utilized GIS tools to visualize data and present findings effectively.
- Drafted comprehensive reports for stakeholders, highlighting key insights and recommendations.
- Managed project timelines and deliverables to ensure successful evaluation outcomes.

RESEARCH ANALYST

Environmental Relief Foundation

2014 - 2016

- Conducted research on environmental impacts of humanitarian projects in vulnerable areas.
- Analyzed data trends to inform strategic planning and resource allocation.
- Collaborated with environmental scientists to develop integrated assessment frameworks.
- Prepared presentations for internal and external stakeholders to disseminate research findings.
- Participated in policy discussions, advocating for sustainable practices in relief efforts.
- Mentored junior analysts in research methodologies and data interpretation.
