SKILLS

- Remote sensing analysis
- Climate monitoring
- Data reporting
- Community engagement
- GIS expertise
- Policy development

LANGUAGES

- English
- Spanish
- French

EDUCATION

MASTER OF ENVIRONMENTAL SCIENCE, UNIVERSITY OF FLORIDA

ACHIEVEMENTS

- Recognized for outstanding contributions to community climate resilience projects.
- Secured funding for a climate education initiative that reached over 1,000 participants.
- Published articles in local media to raise awareness about climate change impacts.

WORK EXPERIENCE

REMOTE SENSING ANALYST

Climate Action Network

2020 - 2025

- Analyzed satellite data to evaluate climate impacts on vulnerable ecosystems.
- Developed interactive dashboards for real-time climate data monitoring.
- Collaborated with NGOs to implement community-based climate adaptation strategies.
- Conducted training for local governments on the use of remote sensing tools.
- Produced analytical reports that influenced regional climate policies.
- Participated in international climate forums to share best practices and research findings.

ENVIRONMENTAL ANALYST

Sustainable Development Agency

2015 - 2020

- Supported climate research initiatives through detailed data collection and analysis.
- Utilized GIS software to map environmental changes and assess vulnerabilities.
- Facilitated workshops aimed at increasing public understanding of climate issues.
- Contributed to the development of educational materials for community outreach.
- Coordinated with research teams to align objectives with community needs.
- Assisted in drafting policy recommendations based on research findings.
