- San Francisco, CA

### SKILLS

- Photovoltaic Design
- Project Management
- Quality Assurance
- Client Engagement
- Troubleshooting
- Safety Compliance

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

**BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING, SOLAR UNIVERSITY, 2013**

### ACHIEVEMENTS

- Increased client satisfaction scores by 35% through exceptional service delivery.
- Awarded 'Best Project' by the Renewable Energy Association in 2021.
- Implemented a new design protocol that reduced project costs by 20%.

### WORK EXPERIENCE

#### PHOTOVOLTAIC SYSTEM DESIGNER

Solar Innovations LLC

2020 - 2025

- Designed custom photovoltaic systems tailored to client energy needs.
- Conducted feasibility studies to assess site-specific solar potential.
- Collaborated with architects and engineers to integrate solar designs into building plans.
- Managed project timelines and budgets to ensure successful implementation.
- Performed quality assurance inspections on completed installations.
- Provided technical support during the installation phase for contractors.

#### SOLAR ELECTRICIAN

EcoSmart Energy

2015 - 2020

- Installed and connected solar panels, inverters, and other electrical components.
- Executed troubleshooting procedures to resolve installation issues promptly.
- Engaged with clients to educate them on system operation and maintenance.
- Documented installation processes and maintained compliance records.
- Assisted in the development of training materials for new hires.
- Participated in safety drills and compliance training sessions.
