SKILLS

- engineering software
- data modeling
- project coordination
- community engagement
- report writing
- economic analysis

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN RENEWABLE ENERGY ENGINEERING, UNIVERSITY OF COLORADO

ACHIEVEMENTS

- Delivered feasibility studies that led to the successful implementation of three major renewable projects.
- Recognized for excellence in project delivery and stakeholder engagement in 2022.
- Contributed to a publication on renewable energy technologies and their applications.

Innovative and detail-oriented Renewable Energy Feasibility Analyst with a robust foundation in engineering principles and renewable technologies. Over seven years of experience conducting thorough feasibility studies and evaluations for a variety of renewable energy projects, including solar, wind, and hydroelectric systems. Strong analytical skills combined with a passion for sustainability drive the identification of viable energy solutions that meet both economic and environmental objectives.

WORK EXPERIENCE

FEASIBILITY STUDY ANALYST

Renewable Energy Consultants

2020 - 2025

- Performed feasibility studies for hydroelectric and solar energy projects, assessing potential impacts.
- Utilized engineering software to model project scenarios and predict energy output.
- Collaborated with environmental specialists to ensure compliance with sustainability standards.
- Prepared technical reports and presentations summarizing project findings and recommendations.
- Engaged with community stakeholders to build support for proposed projects.
- Facilitated project meetings to coordinate efforts among team members and stakeholders.

RENEWABLE ENERGY ANALYST

EcoFuture Solutions

2015 - 2020

- Assessed site viability for renewable energy installations, including wind and solar.
- Conducted economic analyses to evaluate project feasibility and return on investment.
- Coordinated with project managers to align feasibility studies with overall project timelines.
- Analyzed data trends to inform project development and strategic planning.
- Developed user-friendly reports for stakeholders to facilitate decision-making.
- Contributed to the development of internal best practices for feasibility assessments.
