## SKILLS

- feasibility studies
- analytical tools
- project coordination
- client engagement
- financial modeling
- market research

## EDUCATION

**BACHELOR OF ARTS IN ENVIRONMENTAL POLICY, UNIVERSITY OF WASHINGTON**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Successfully evaluated over 40 renewable energy projects, resulting in a 20% increase in project approvals.
- Received recognition for outstanding performance in project delivery in 2021.
- Contributed to a research paper on the economic impacts of renewable energy adoption.

# Michael Anderson

## RENEWABLE ENERGY EVALUATOR

Dedicated and analytical Renewable Energy Feasibility Analyst with over six years of experience in evaluating renewable energy projects for commercial and residential applications. Expertise in conducting feasibility studies that assess technical, economic, and environmental aspects, ensuring that projects are aligned with client goals and sustainability objectives. Strong communication skills facilitate effective collaboration with clients, engineers, and regulatory agencies.

## EXPERIENCE

### RENEWABLE ENERGY EVALUATOR

Sustainability Consulting Group

2016 - Present

- Conducted thorough feasibility studies for residential solar installations, focusing on energy savings.
- Utilized analytical tools to evaluate project costs and potential ROI for clients.
- Collaborated with engineering teams to ensure compliance with technical specifications.
- Prepared detailed feasibility reports outlining project recommendations.
- Engaged with local authorities to secure necessary permits for project implementation.
- Facilitated client meetings to discuss findings and project timelines.

### ENERGY ANALYST

Renewable Solutions Inc.

2014 - 2016

- Assessed the feasibility of wind energy projects, analyzing site conditions and local regulations.
- Developed financial models to project costs and assess economic viability.
- Coordinated with project teams to align feasibility studies with project goals.
- Prepared presentations for stakeholders to communicate project benefits.
- Conducted market research to identify trends in renewable energy adoption.
- Authored internal reports that informed strategic planning and project development.
