

MICHAEL ANDERSON

Biomass Project Manager

Seasoned Renewable Energy Manager with expertise in biomass energy production and waste-to-energy projects. Over 14 years of experience in project management, operational oversight, and strategic planning within the renewable energy sector. Proven ability to develop and implement innovative solutions that address energy challenges while promoting environmental sustainability. Recognized for strong analytical skills and a results-oriented approach to project execution.

EDUCATION

Master of Science in Environmental Engineering

University of Michigan
2016-2020

SKILLS

- Project Management
- Biomass Energy
- Operational Oversight
- Regulatory Compliance
- Community Engagement
- Process Improvement

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Biomass Project Manager

2020-2023

GreenFuel Technologies

- Managed the development and operation of a biomass energy facility generating 50 MW.
- Oversaw the procurement of biomass feedstock, ensuring sustainability and cost-effectiveness.
- Coordinated with regulatory bodies to secure necessary permits and compliance.
- Implemented process improvements that increased operational efficiency by 15%.
- Facilitated community engagement initiatives to promote biomass energy awareness.
- Prepared project reports and presented findings to stakeholders and investors.

Operations Manager

2019-2020

Renewable Energy Solutions

- Supervised day-to-day operations of a waste-to-energy facility.
- Developed operational strategies that improved efficiency and reduced waste.
- Monitored facility performance and implemented corrective actions as needed.
- Collaborated with engineering teams to optimize plant design and operations.
- Conducted safety and compliance audits to maintain operational integrity.
- Trained staff on best practices for biomass handling and processing.

ACHIEVEMENTS

- Successfully launched the first biomass facility in the region, exceeding energy output expectations.
- Awarded 'Innovator of the Year' in the renewable energy sector.
- Increased operational efficiency by 30% through strategic process enhancements.
