## REQUIREMENTS ANALYST

Innovative Requirements Analyst with a strong foundation in software development and project management, equipped with over 6 years of experience in driving requirements analysis and stakeholder engagement in the tech sector. Recognized for a keen ability to translate complex business needs into clear, actionable technical requirements, thereby facilitating effective project execution.

## PROFESSIONAL EXPERIENCE

### **Innovative Software Solutions**

*Mar 2018 - Present*

#### Requirements Analyst

- Gathered business requirements through interviews and workshops with stakeholders.
- Developed user stories and acceptance criteria to guide development teams.
- Utilized tools such as Trello for project management and tracking progress.
- Collaborated with UX designers to ensure user-centric solutions.
- Monitored project timelines and deliverables to ensure alignment with business objectives.
- Conducted gap analyses to identify areas for improvement in existing processes.

### **Tech Innovators LLC**

*Dec 2015 - Jan 2018*

#### Junior Business Analyst

- Assisted in the documentation of business requirements for software projects.
- Participated in stakeholder meetings to gather insights and feedback.
- Developed process flow diagrams to visualize workflows and identify bottlenecks.
- Supported testing efforts by creating test cases based on requirements.
- Maintained project documentation to ensure transparency and traceability.
- Engaged in continuous learning to enhance analytical skills and industry knowledge.

## ACHIEVEMENTS

- Successfully delivered a project that improved customer satisfaction scores by 20%.
- Recognized for exceptional analytical skills in identifying key business opportunities.
- Contributed to a project that reduced time-to-market by 15% through streamlined processes.
