# MICHAEL ANDERSON

## REST API DEVELOPER

Results-driven REST API Developer with 4 years of experience specializing in e-commerce applications. Proficient in creating APIs that enhance customer experiences and drive sales. Strong background in both front-end and back-end development, enabling effective collaboration with diverse teams. Knowledgeable in using various programming languages and frameworks to build and maintain efficient APIs.

## **PROFESSIONAL EXPERIENCE**

### **E-Comm Hub**

*Mar 2018 - Present*

REST API Developer

- Designed and implemented RESTful APIs for online shopping platforms, improving user engagement by 20%.
- Worked closely with front-end developers to ensure seamless integration of APIs with user interfaces.
- Utilized tools like Postman for testing API functionality and performance.
- Optimized API response times by implementing effective caching mechanisms.
- Collaborated with marketing teams to understand customer needs and adjust API features accordingly.
- Maintained comprehensive documentation for APIs, facilitating easy access for developers.

### **ShopSmart**

*Dec 2015 - Jan 2018*

Junior Developer

- Assisted in the development of REST APIs for inventory management systems.
- Engaged in code testing and debugging to ensure smooth functionality of APIs.
- Coordinated with design teams to align API functionalities with user expectations.
- Documented API usage and best practices for internal training purposes.
- Participated in Agile development sprints, providing input on user stories and acceptance criteria.
- Supported senior developers in API deployment and maintenance tasks.

## **ACHIEVEMENTS**

- Increased API efficiency, resulting in a 15% reduction in server load.
- Received positive feedback from clients for API user experience improvements.
- Contributed to a project that achieved a 10% increase in online sales through API enhancements.
