## RESTORATIVE DENTIST FOR GERIATRIC CARE

As a restorative dentist with a focus on geriatric dentistry, I have dedicated my 10-year career to improving the oral health of elderly patients. My experience working in nursing homes and assisted living facilities has equipped me with unique skills to address the specific needs of older adults.

## EXPERIENCE

### RESTORATIVE DENTIST FOR GERIATRIC CARE

Sunrise Senior Living

2016 - Present

- Provided restorative dental care to over 200 elderly patients in nursing facilities and assisted living centers.
- Developed individualized treatment plans that addressed the unique needs and limitations of geriatric patients.
- Fabricated custom dentures and partials that improved patients' quality of life by restoring their ability to eat and speak.
- Conducted educational seminars for caregivers on the importance of oral health in aging populations.
- Collaborated with interdisciplinary teams to ensure comprehensive care for patients with complex medical histories.
- Maintained meticulous records to track treatment outcomes and patient satisfaction.

### ASSOCIATE DENTIST

Elder Care Dental

2014 - 2016

- Performed routine restorative procedures for elderly patients, focusing on comfort and accessibility.
- Worked closely with nursing staff to coordinate care for patients with mobility and cognitive challenges.
- Educated families on the importance of oral healthcare for elderly patients, increasing engagement by 30%.
- Implemented a follow-up protocol for post-treatment care, enhancing patient recovery times.
- Presented case studies at dental conferences focused on geriatric care best practices.
- Participated in community health initiatives to raise awareness about oral health in aging populations.
