MICHAEL ANDERSON

RISK DATA ANALYST

Enthusiastic Risk Data Analyst with 4 years of experience in the healthcare industry. Skilled in integrating data analytics with risk management to enhance patient safety and operational efficiency. Strong background in statistical analysis and predictive modeling. Proven ability to collaborate with clinical teams to identify risks and implement solutions that improve healthcare outcomes.

PROFESSIONAL EXPERIENCE

HealthFirst Hospital   *Mar 2018 - Present*
Risk Data Analyst

- Performed statistical analyses to identify patient safety risks.
- Developed predictive models using Python to forecast patient outcomes.
- Collaborated with clinical staff to implement risk reduction strategies.
- Created monthly performance reports for senior management review.
- Utilized SQL to extract and manipulate healthcare data for analysis.
- Conducted training sessions on data interpretation for clinical teams.

Wellness Analytics   *Dec 2015 - Jan 2018*
Data Analyst Intern

- Assisted in data collection and analysis for healthcare projects.
- Supported the development of risk assessment tools for client use.
- Participated in team meetings to discuss project outcomes and strategies.
- Created visualizations to communicate findings to stakeholders.
- Helped compile case studies on risk management interventions.
- Conducted literature reviews to support data-driven decisions.

ACHIEVEMENTS

- Improved patient safety metrics by 25% through data-driven interventions.
- Received 'Intern of the Year' recognition for outstanding analytical contributions.
- Contributed to a successful project that reduced readmission rates by 10%.
