EXPERTISE SKILLS

- Software Development
- Robotics
- Machine Learning
- Technical Support
- Documentation
- Client Training

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Computer Science, University of California, Berkeley

MICHAEL ANDERSON

ROBOTICS SOFTWARE ENGINEER

A results-driven Robotics and Automation Consultant with a strong foundation in software development and robotics engineering. Expertise in designing and implementing software solutions that facilitate the operation of robotic systems. Skilled in programming languages and frameworks used in automation, alongside proficiency in machine learning applications. Recognized for the ability to bridge the gap between software and hardware, ensuring seamless integration of robotic systems within varied environments.

PROFESSIONAL EXPERIENCE

NextGen Robotics

Mar 2018 - Present

Robotics Software Engineer

- Developed software for robotic systems, enhancing functionality and performance.
- Collaborated with hardware engineers to ensure compatibility between software and robotic components.
- Implemented machine learning algorithms to improve robotic decision-making.
- Conducted unit testing and debugging to maintain software integrity.
- Participated in code reviews to ensure adherence to coding standards.
- Provided technical support to clients following software deployment.

Smart Tech Solutions

Dec 2015 - Jan 2018

Automation Software Consultant

- Assisted clients in selecting software solutions for their automation needs.
- Designed custom software applications to optimize robotic operations.
- Conducted training sessions for clients on software usage and troubleshooting.
- Analyzed client feedback to improve software features and usability.
- Managed software updates and enhancements to existing robotic systems.
- Created documentation for software applications, ensuring user-friendly interfaces.

ACHIEVEMENTS

- Improved software efficiency by 30% through optimization techniques.
- Received 'Employee of the Month' for outstanding contributions to project success.
- Successfully trained over 100 clients in software implementation and usage.
