### EDUCATION

#### Bachelor of Arts in Education

University of Learning  
2015

### SKILLS

- Robotics Education
- Lesson Planning
- Hands-On Learning
- Student Support
- Community Engagement
- Technology Integration

### LANGUAGES

- English
- Spanish
- French

### WORK EXPERIENCE

#### Robotics Teacher

2020-2023

Future Leaders Academy

- Taught comprehensive robotics courses to elementary and middle school students.
- Designed engaging lesson plans that incorporate hands-on activities.
- Facilitated robotics workshops to enhance student skills.
- Collaborated with other educators to integrate robotics into the curriculum.
- Organized school-wide robotics events to showcase student work.
- Provided individualized support to students for project completion.

#### Technology Instructor

2019-2020

Community Tech Center

- Developed and taught technology courses with a focus on robotics.
- Engaged students in real-world problem-solving through robotics projects.
- Monitored student progress and provided feedback for improvement.
- Organized community workshops to promote technology education.
- Collaborated with local businesses for resources and support.
- Participated in regional competitions to enhance student learning.

### ACHIEVEMENTS

- Increased student engagement in robotics classes by 30%.
- Recognized for excellence in teaching by local educational organizations.
- Successfully implemented a robotics curriculum for diverse learners.
