A forward-thinking Robotics Process Analyst with a robust background in logistics and supply chain automation, possessing over 9 years of experience in optimizing operations through innovative technologies. Demonstrates a profound understanding of the logistics landscape and the impact of automation on supply chain efficiency. Expertise in analyzing complex logistics processes, identifying automation opportunities, and implementing RPA solutions that enhance performance and reduce costs.

SKILLS

- RPA
- Supply Chain Automation
- Logistics Optimization
- Process Auditing
- Data Analytics
- Training Development

EDUCATION

BACHELOR OF SCIENCE IN SUPPLY CHAIN MANAGEMENT, ARIZONA STATE UNIVERSITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Reduced logistics costs by 20% through successful implementation of automation solutions.
- Recognized for excellence in project execution and innovation in logistics.
- Improved delivery times by 25% through enhanced supply chain processes.

EXPERIENCE

SENIOR ROBOTICS PROCESS ANALYST

Logistics Innovations Corp.

2016 - Present

- Implemented RPA solutions that optimized inventory management processes, reducing costs by 15%.
- Conducted process audits to identify areas for automation within the supply chain.
- Utilized advanced analytics tools to measure the impact of automation on logistics performance.
- Collaborated with IT and operations teams to ensure seamless integration of automation tools.
- Developed training programs for staff on new automated processes.
- Presented findings and recommendations to senior management for decision-making.

LOGISTICS PROCESS ANALYST

Global Supply Solutions

2014 - 2016

- Analyzed logistics workflows to identify inefficiencies and recommend automation solutions.
- Supported the development and testing of RPA tools to enhance supply chain operations.
- Documented process flows and created user manuals for automated systems.
- Participated in project teams to ensure successful implementation of automation initiatives.
- Engaged with stakeholders to gather feedback and improve automation processes.
- Maintained records of project progress and outcomes for reporting.
