## WORK EXPERIENCE

### Agronomy Extension Specialist

2020-2023

Sustainable Farms Initiative

- Developed agronomic research projects to assess soil health and crop yield.
- Conducted training sessions on sustainable farming techniques for local farmers.
- Collaborated with environmental organizations to promote conservation practices.
- Analyzed agricultural data to inform policy recommendations.
- Facilitated community discussions on climate change impacts on agriculture.
- Monitored program outcomes to measure success and areas for improvement.

### Environmental Education Coordinator

2019-2020

Eco-Agri Network

- Led educational programs focused on the intersection of agriculture and conservation.
- Engaged local schools in agricultural education initiatives.
- Organized community events to raise awareness about sustainable practices.
- Collaborated with researchers to disseminate findings on environmental impacts.
- Developed outreach materials to promote best practices among farmers.
- Implemented monitoring systems to evaluate program effectiveness.

## ACHIEVEMENTS

- Increased farmer adoption of sustainable practices by 40% within two years.
- Received 'Environmental Stewardship Award' from the State Agriculture Board.
- Established a community-based research initiative that engaged over 150 farmers.
