PROFILE

Dynamic and results-driven Rural Sanitation Coordinator with a strong background in environmental health and community development. Expertise in designing and executing sanitation programs that meet the unique challenges faced by rural populations. Proven track record of engaging stakeholders to foster collaborative partnerships that enhance program effectiveness. Highly skilled in the integration of sustainable practices into sanitation initiatives, ensuring long-term viability and community ownership.

EXPERIENCE

RURAL SANITATION COORDINATOR

Health for All Foundation

2016 - Present

- Directed rural sanitation initiatives, achieving a 30% increase in facility usage.
- Established partnerships with local NGOs to expand outreach efforts.
- Implemented training programs for community health workers on sanitation best practices.
- Conducted regular assessments to identify and address sanitation challenges.
- Utilized mobile technology for data collection and program monitoring.
- Developed educational materials to promote hygiene awareness.

ENVIRONMENTAL HEALTH OFFICER

Green Earth

2014 - 2016

- Evaluated the impact of sanitation projects on community health outcomes.
- Collaborated with local governments to align sanitation strategies with environmental regulations.
- Designed public campaigns to raise awareness about sanitation issues.
- Managed field surveys to assess sanitation needs and resources.
- Provided technical assistance for the implementation of sanitation technologies.
- Facilitated community meetings to gather feedback and improve initiatives.
