### EDUCATION

**MASTER OF SCIENCE IN  
ASTROPHYSICS, CALIFORNIA  
INSTITUTE OF TECHNOLOGY**

### ACHIEVEMENTS

- Increased mission success rates by 40% through strategic planning and execution.
- Received multiple awards for outstanding leadership and project delivery.
- Authored industry-leading publications on satellite mission architecture.

### WORK EXPERIENCE

#### CHIEF MISSION PLANNER

AstroTech Enterprises

2020 - 2025

- Designed and implemented comprehensive mission strategies for satellite deployment.
- Led a team of engineers and analysts in the execution of high-profile missions.
- Utilized advanced modeling tools to evaluate mission scenarios and outcomes.
- Facilitated cross-functional workshops to align mission objectives across departments.
- Managed budgets and resources to maximize operational efficiency.
- Presented mission plans to executive leadership for approval and funding.

#### SATELLITE OPERATIONS SPECIALIST

National Aeronautics Corporation

2015 - 2020

- Oversaw satellite operations, ensuring optimal performance and compliance with mission protocols.
- Collaborated with technical teams to resolve operational challenges and improve systems.
- Documented operational processes to enhance team efficiency and knowledge retention.
- Participated in mission debriefs to extract lessons learned for future missions.
- Engaged in risk management practices to identify and mitigate potential issues.
- Supported training initiatives to enhance team capabilities in satellite operations.
