EDUCATION

**BACHELOR OF SCIENCE IN BIOLOGY
EDUCATION, STATE UNIVERSITY, 2017**

ACHIEVEMENTS

- Recognized as 'Teacher of the Month' for innovative teaching practices in 2020.
- Increased student participation in science fairs by 50% during my tenure.
- Successfully led a community outreach program focused on environmental conservation.

PROFILE

Enthusiastic and innovative Biology Teacher with over 5 years of experience in middle school education. My approach to teaching biology emphasizes inquiry-based learning and the importance of relating scientific concepts to everyday life. I am skilled in creating a dynamic classroom environment that encourages student participation and fosters a genuine interest in the natural world.

EXPERIENCE

MIDDLE SCHOOL BIOLOGY TEACHER

Lakeside Academy

2016 - Present

- Developed interactive lesson plans that improved student understanding of biological concepts by 35%.
- Implemented hands-on projects, such as ecosystems in a bottle, to enhance student engagement.
- Utilized digital platforms to create virtual labs for remote learning scenarios.
- Coordinated school-wide science fairs to promote student interest in biology.
- Established a mentorship program for students interested in pursuing science careers.
- Conducted regular assessments to track student progress and adapt teaching methods accordingly.

SCIENCE EDUCATOR INTERN

Citywide School District

2014 - 2016

- Assisted lead teacher in developing and delivering biology curriculum for grades 6-8.
- Engaged in classroom management and supported diverse learner needs.
- Conducted after-school tutoring sessions to help struggling students.
- Participated in faculty meetings to discuss curriculum improvements.
- Helped organize field trips to local science museums and nature centers.
- Created educational materials that aligned with state science standards.
