EDUCATION

MASTER'S IN EDUCATION POLICY,
UNIVERSITY OF EDUCATION, 2011

ACHIEVEMENTS

- Authored a widely cited report on the impact of educational funding reforms on student outcomes.
- Recognized by the Association for Educational Research for outstanding contributions in 2021.
- Successfully led a multi-state research project that resulted in the adoption of new teaching standards.

PROFILE

Results-oriented School Education Researcher with over ten years of experience in educational policy analysis and program evaluation. My career has been dedicated to improving educational systems through rigorous research and data analysis. I have worked closely with school districts to assess the effectiveness of educational programs and develop strategic recommendations based on empirical evidence.

EXPERIENCE

SENIOR POLICY ANALYST

National Center for Education Research

2016 - Present

- Led comprehensive evaluations of federal education programs to assess their impact on student achievement.
- Developed policy recommendations based on research findings that influenced state educational standards.
- Conducted workshops for district leaders on effective program implementation.
- Collaborated with researchers to produce reports that guided national educational reforms.
- Utilized advanced statistical methods to analyze large-scale assessment data.
- Engaged with policymakers to advocate for research-based educational practices.

RESEARCH ASSOCIATE

State Education Department

2014 - 2016

- Assisted in the evaluation of statewide educational initiatives aimed at improving literacy rates.
- Conducted surveys and focus groups to gather stakeholder feedback on educational programs.
- Analyzed data to identify trends and inform future educational policy decisions.
- Coordinated with various departments to ensure alignment of research objectives with educational goals.
- Produced detailed reports highlighting successes and areas for improvement in educational practices.
- Participated in community engagement efforts to promote educational research findings.
