# Michael Anderson

## NUTRITION PROGRAM EVALUATOR

Strategic thinker with a strong foundation in school nutrition and community health initiatives, dedicated to improving the dietary habits and overall well-being of students. Specialized in program evaluation and effectiveness, with a keen ability to analyze data to drive improvements and enhance program design. Proven success in building coalitions and engaging diverse stakeholders to support comprehensive nutrition programs.

## EXPERIENCE

### NUTRITION PROGRAM EVALUATOR

State Department of Health

2016 - Present

- Conducted evaluations of state-funded school nutrition programs.
- Developed metrics to assess program impact on student health outcomes.
- Collaborated with schools to implement evaluation findings and improvements.
- Presented findings to stakeholders to inform program adjustments.
- Authored comprehensive reports detailing program successes and challenges.
- Facilitated training for school staff on evaluation processes.

### COMMUNITY HEALTH ADVOCATE

Healthy Kids Coalition

2014 - 2016

- Advocated for improved access to nutritious meals in low-income schools.
- Organized community workshops to educate families on healthy eating.
- Collaborated with local organizations to provide resources for families.
- Conducted outreach to increase awareness of school meal programs.
- Engaged with parents and community members to gather feedback.
- Participated in health fairs to promote nutrition education.
