EDUCATION

MASTER OF EDUCATION IN SCIENCE
EDUCATION, RIVERSIDE UNIVERSITY,
2016

ACHIEVEMENTS

- Increased student engagement in physics through the integration of technology by 40%.
- Recognized for excellence in teaching with the 'Innovative Educator Award' in 2020.
- Successfully guided students to win regional science competitions three consecutive years.

PROFILE

Enthusiastic School Physics Teacher with a focus on integrating technology into the classroom. I have over 7 years of experience teaching high school physics, where my primary goal is to make physics accessible and interesting for students of all backgrounds. My teaching style emphasizes interactive learning and real-world applications of physics concepts, which has led to improved student engagement and performance.

EXPERIENCE

PHYSICS TEACHER

Riverside Academy

2016 - Present

- Designed and implemented interactive lesson plans tailored to student interests and abilities.
- Incorporated technology such as simulations and online resources to enhance learning experiences.
- Facilitated hands-on projects that connected physics principles to real-world phenomena.
- Supported students in developing critical thinking and problem-solving skills through collaborative activities.
- Maintained a positive classroom environment conducive to learning and exploration.
- Regularly communicated with parents about student progress and classroom activities.

LEAD PHYSICS INSTRUCTOR

Riverside Academy

2014 - 2016

- Led the development of the school's physics curriculum to align with modern educational standards.
- Trained and mentored new teachers in effective instructional strategies and classroom management.
- Organized annual science fairs to promote student research and creativity in physics.
- Implemented assessment strategies that provided valuable feedback for student learning improvements.
- Collaborated with the administration to enhance the overall science program at the school.
- Engaged with the community to promote the importance of science education.
