SKILLS

- AWS
- Docker
- Cloud Security
- CI/CD
- Encryption
- IAM

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Enhanced application security leading to a 35% reduction in vulnerabilities.
- Successfully launched a cloud application that increased user engagement by 50%.
- Received 'Best New Developer' award for contributions to cloud security projects.

I am a committed Secure Software Developer with over 6 years of experience in cloud computing, focusing on developing secure cloud-based applications that protect user data. My career has been dedicated to utilizing cloud technologies to enhance the scalability and security of software solutions.

EXPERIENCE

CLOUD SECURE DEVELOPER

CloudTech Solutions

2016 - Present

- Developed secure cloud applications using AWS and Docker.
- Implemented IAM roles and policies for secure access management.
- Conducted security assessments on cloud architectures.
- Collaborated with DevOps teams to integrate security into CI/CD pipelines.
- Designed and implemented encryption solutions for data at rest and in transit.
- Provided training on cloud security best practices to development teams.

SOFTWARE ENGINEER

TechCloud Innovations

2014 - 2016

- Assisted in developing secure applications deployed on cloud platforms.
- Participated in security reviews of cloud-based services.
- Utilized secure coding practices to minimize vulnerabilities in cloud applications.
- Supported the implementation of cloud security frameworks.
- Documented security protocols for cloud application development.
- Engaged in continuous learning about emerging cloud security trends.
