EDUCATION

Bachelor of Science in Telecommunications Engineering

University
2016-2020

SKILLS

- Encryption
- VoIP
- Secure Protocols
- Risk Management
- Secure Coding
- Telecommunications Security

LANGUAGES

- English
- Spanish
- French

As a passionate Secure Software Developer with over 9 years of experience in the telecommunications industry, I focus on developing secure communication applications that protect user privacy and data integrity. My career has evolved around the need for security in telecommunications, where protecting data in transit is paramount. I have extensive experience with encryption technologies and secure communication protocols.

💼 WORK EXPERIENCE

Secure Software Architect
2020-2023

Telecom Innovations Inc.

- Designed secure communication applications with a focus on encryption.
- Implemented secure protocols for data transmission across networks.
- Conducted regular security audits to assess application vulnerabilities.
- Collaborated with product teams to define security requirements.
- Developed risk management strategies for new communication solutions.
- Mentored junior developers on secure coding practices and methodologies.

Software Developer
2019-2020

SecureTel Technologies

- Assisted in developing secure VoIP applications.
- Participated in testing and validating security measures for communication systems.
- Utilized secure coding practices to protect user data and privacy.
- Supported the implementation of encryption for voice and data communication.
- Documented security protocols and compliance standards.
- Engaged in continuous learning about telecommunications security trends.

⭐ ACHIEVEMENTS

- Successfully integrated encryption into communication applications, increasing security by 40%.
- Led a project that achieved a 30% reduction in system vulnerabilities.
- Recognized by upper management for outstanding contributions to security initiatives in telecommunications.
