MICHAEL ANDERSON

LEAD WEB DEVELOPER

Experienced Secure Web Developer with a strong background in the healthcare industry, emphasizing the creation of secure applications for managing sensitive patient data. Over 7 years of experience in web development, focusing on compliance with HIPAA and other regulatory standards. Skilled in analyzing security vulnerabilities and implementing solutions that protect data integrity and confidentiality.

PROFESSIONAL EXPERIENCE

HealthTech Innovations   *Mar 2018 - Present*
Lead Web Developer

- Led the development of a secure patient management system using .NET and SQL Server.
- Ensured compliance with HIPAA regulations through secure coding practices.
- Conducted regular security assessments and implemented mitigation strategies.
- Collaborated with healthcare professionals to gather requirements and enhance user experience.
- Trained team members on best practices for secure web development.
- Implemented continuous integration and deployment for streamlined updates.

Medical Solutions Corp.   *Dec 2015 - Jan 2018*
Web Developer

- Developed web applications focused on secure data handling and user authentication.
- Assisted in the migration of legacy systems to modern secure platforms.
- Participated in security audits and contributed to risk assessment reports.
- Implemented user feedback mechanisms to improve application security features.
- Documented development processes and security protocols.
- Supported the integration of third-party health data APIs securely.

ACHIEVEMENTS

- Achieved a 50% reduction in security incidents by implementing strict access controls.
- Recognized for outstanding contributions to a project that improved patient data security.
- Successfully trained over 20 staff members on secure development practices.
