

MICHAEL ANDERSON

THREAT INTELLIGENCE ANALYST

PROFILE

Proactive and analytical Security Analyst specializing in threat intelligence and incident response. Over eight years of experience in the cybersecurity domain, focusing on the detection of advanced persistent threats and the development of mitigation strategies. A strong advocate for proactive security measures and continuous improvement, with a proven ability to leverage data analytics for informed decision-making.

EXPERIENCE

THREAT INTELLIGENCE ANALYST

SecureNet Solutions

2016 - Present

- Analyzed threat data to identify trends and predict potential security breaches.
- Collaborated with law enforcement to investigate cyber incidents.
- Developed and maintained threat intelligence reports for stakeholders.
- Conducted training on threat detection for junior analysts.
- Utilized SIEM tools to monitor security alerts and incidents.
- Created response strategies that improved incident resolution times by 25%.

SECURITY ANALYST

TechGuard Inc.

2014 - 2016

- Monitored and analyzed security events to detect anomalies.
- Implemented security measures that enhanced data protection protocols.
- Assisted in compliance audits, ensuring adherence to industry standards.
- Provided detailed reports on security incidents and recommendations.
- Participated in disaster recovery planning and execution.
- Researched emerging threats and shared findings with the team.
