EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE, UNIVERSITY OF HEALTH SCIENCES, 2015

ACHIEVEMENTS

- Successfully led a project that achieved 100% HIPAA compliance during audits.
- Received 'Best Innovator' award for developing a unique security training module.
- Improved employee security awareness scores by 40% through targeted training initiatives.

PROFILE

Results-oriented Security Architect with 8 years of experience in the healthcare sector, focusing on protecting sensitive patient data against cyber threats. Skilled in implementing security protocols that ensure compliance with HIPAA regulations while optimizing system performance. Strong analytical skills with a track record of conducting thorough security assessments and deploying robust security measures.

EXPERIENCE

SECURITY ARCHITECT

HealthTech Innovations

2016 - Present

- Designed security architecture for electronic health record systems, reducing data breaches by 50%.
- Implemented multi-factor authentication protocols across all healthcare applications.
- Developed training programs for over 150 staff on HIPAA compliance and data security.
- Conducted regular audits and risk assessments to identify vulnerabilities in existing systems.
- Collaborated with software developers to integrate security features into new health applications.
- Led incident response efforts that successfully contained data breaches within 24 hours.

NETWORK SECURITY ANALYST

MediCare Systems

2014 - 2016

- Monitored network traffic and implemented security measures that decreased unauthorized access attempts by 70%.
- Conducted vulnerability assessments and developed remediation plans for identified issues.
- Collaborated with IT teams to secure cloud-based solutions for patient data storage.
- Assisted in the development of disaster recovery plans to ensure data availability.
- Generated monthly security reports for management to track compliance and incident statistics.
- Participated in cross-departmental security committees to promote a culture of security awareness.
