SKILLS

- Application Security
- Secure Coding
- Risk Management
- Vulnerability Assessment
- Incident Response
- Security Training

EDUCATION

MASTER OF SCIENCE IN CYBERSECURITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Reduced critical vulnerabilities in applications by 30% through rigorous code reviews.
- Received the Innovation Award for developing a comprehensive application security training program.
- Successfully led a project that integrated security testing into the CI/CD pipeline.

Michael Anderson
APPLICATION SECURITY ENGINEER

Dynamic Security Assurance Engineer with a focus on application security and risk management. With over 7 years of experience in the technology sector, I have developed a passion for securing software applications against emerging threats. I possess deep knowledge of secure coding practices and have a proven ability to conduct thorough code reviews and security assessments.

EXPERIENCE

APPLICATION SECURITY ENGINEER
SoftSecure Inc.
2016 - Present

- Conducted security code reviews and vulnerability assessments for web applications.
- Collaborated with development teams to implement secure coding practices, reducing vulnerabilities by 20%.
- Designed training programs for developers on application security best practices.
- Utilized static and dynamic analysis tools to identify and remediate security flaws.
- Developed and maintained a secure software development lifecycle (SDLC) framework.
- Participated in incident response for application-related security breaches.

SECURITY ANALYST
TechGuard Solutions
2014 - 2016

- Performed security assessments on software applications, identifying critical vulnerabilities.
- Engaged in threat modeling exercises to assess potential risks to applications.
- Worked with QA teams to ensure security tests are included in testing phases.
- Created detailed reports on security findings and recommended remediation strategies.
- Developed incident response plans specifically for application security incidents.
- Engaged with stakeholders to promote security awareness throughout the organization.
