Analytical Security Assurance Engineer with over 9 years of experience specializing in network security and threat intelligence. My career has been dedicated to protecting organizational assets by implementing robust security measures and monitoring network traffic for suspicious activities. Experienced in using advanced threat detection tools and conducting forensic analysis post-incident. Have a strong understanding of network protocols and security architectures.

💼 WORK EXPERIENCE

Network Security Engineer   2020-2023

NetSecure Corp.

- Designed and implemented network security solutions to protect organizational infrastructure.
- Conducted regular network security assessments, identifying and mitigating vulnerabilities.
- Utilized IDS/IPS systems to monitor and respond to network threats in real time.
- Collaborated with IT teams to implement firewall rules and access controls.
- Performed forensic analysis of security incidents, providing detailed reports for stakeholders.
- Developed network security policies that aligned with industry standards.

Security Operations Analyst   2019-2020

SecureNet Solutions

- Monitored security alerts and escalated critical incidents for immediate response.
- Analyzed network traffic patterns to identify potential threats and vulnerabilities.
- Worked closely with incident response teams to remediate security breaches.
- Developed and maintained security documentation for network security procedures.
- Conducted training for IT staff on network security best practices.
- Engaged in threat intelligence sharing to enhance organizational security posture.

★ ACHIEVEMENTS

- Enhanced network security posture, reducing incidents by 40% through proactive monitoring.
- Received the Team Excellence Award for outstanding performance in incident response.
- Successfully implemented a new IDS system that improved threat detection capabilities.
