SKILLS

- Network security
- risk assessment
- incident management
- telecommunications security
- Cisco ASA
- Juniper firewalls

EDUCATION

BACHELOR'S DEGREE IN INFORMATION SYSTEMS, UNIVERSITY OF TECHNOLOGY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Reduced network security incidents by 30% through proactive monitoring and incident management.
- Recognized with the 'Telecom Security Excellence Award' for outstanding performance in network security.
- Successfully led initiatives that improved compliance with industry security standards.

Michael Anderson

NETWORK SECURITY ENGINEER

Experienced Security Operations Engineer with over 7 years of expertise in the telecommunications industry, specializing in securing communication networks and services. Proven ability to implement security measures, perform risk assessments, and manage security incidents effectively. Proficient in using advanced security tools such as Cisco ASA and Juniper firewalls to protect against cyber threats.

EXPERIENCE

NETWORK SECURITY ENGINEER

TelecomSecure Inc.

2016 - Present

- Designed security architectures for telecommunications networks, significantly reducing vulnerabilities to attacks.
- Managed security incidents involving network breaches, ensuring rapid response and recovery.
- Conducted risk assessments and vulnerability scans to identify and mitigate risks effectively.
- Utilized Cisco ASA and Juniper firewalls to enforce security policies and protect network integrity.
- Collaborated with engineering teams to implement security best practices in network designs.
- Provided training for technical staff on network security protocols and incident response strategies.

SECURITY ANALYST

ConnectTel Corp.

2014 - 2016

- Monitored security events and alerts, responding to potential security incidents promptly.
- Participated in the development of incident response plans tailored for telecommunications services.
- Conducted security audits, leading to improved compliance with industry standards.
- Collaborated with cross-functional teams to ensure network security measures were effectively implemented.
- Documented security incidents and provided analysis for continuous improvement.
- Engaged in security awareness campaigns, enhancing the security culture within the organization.
