- San Francisco, CA

SKILLS

- Cloud Computing
- Data Analytics
- Cybersecurity
- AWS
- SQL
- Project Management

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, UNIVERSITY OF CALIFORNIA

ACHIEVEMENTS

- Led a project that reduced operational costs by 20% through process optimization.
- Recognized for outstanding performance with an employee excellence award.
- Successfully implemented a security protocol that decreased data breaches by 50%.

PROFILE

Accomplished Senior FinTech Engineer specializing in the development and implementation of advanced financial systems. With a robust background in software engineering and a keen understanding of the financial landscape, the focus remains on delivering scalable solutions that enhance operational efficiency. Expertise in cloud computing, data analytics, and cybersecurity protocols ensures that projects meet the highest standards of quality and security.

EXPERIENCE

SENIOR FINTECH ENGINEER

Digital Finance Solutions

2016 - Present

- Engineered cloud-based financial applications utilizing AWS, improving scalability by 50%.
- Developed data encryption methodologies that enhanced information security across platforms.
- Managed end-to-end project lifecycles, ensuring timely delivery and adherence to budget.
- Collaborated with finance teams to design systems that streamline transaction processes.
- Performed risk assessments to identify vulnerabilities and mitigate potential threats.
- Presented technical findings to stakeholders, facilitating informed decision-making.

SOFTWARE DEVELOPER

Tech Solutions Ltd.

2014 - 2016

- Contributed to the development of a mobile banking application that increased user engagement by 25%.
- Implemented RESTful APIs to enhance interoperability between financial services.
- Utilized SQL for database management, optimizing data retrieval processes.
- Participated in code reviews, ensuring adherence to best practices and coding standards.
- Engaged in user acceptance testing, gathering feedback to drive iterative improvements.
- Coordinated with cross-functional teams to align project objectives with business goals.
