

# MICHAEL ANDERSON

## SENIOR GEOSPATIAL SURVEYOR

### PROFILE

Highly skilled Senior Surveyor with extensive experience in geospatial analysis and land surveying. Expertise encompasses the application of cutting-edge technology and software to enhance surveying accuracy and efficiency. A proven leader in managing diverse teams and coordinating interdisciplinary projects, ensuring timely delivery within budget constraints. Strong analytical skills paired with a commitment to quality assurance and regulatory compliance.

### EXPERIENCE

#### SENIOR GEOSPATIAL SURVEYOR

##### GeoSurvey Solutions

2016 - Present

- Led geospatial projects using LiDAR technology for infrastructure assessments.
- Developed GIS applications to streamline data management and analysis.
- Conducted training sessions for staff on new surveying technologies.
- Coordinated with governmental agencies for regulatory compliance in surveying practices.
- Performed site analysis and feasibility studies for large-scale developments.
- Produced comprehensive reports detailing survey methodologies and results.

#### LAND SURVEYOR

##### Terra Firma Surveyors

2014 - 2016

- Conducted boundary and topographic surveys for residential and commercial projects.
- Utilized survey-grade GPS equipment for data collection and accuracy verification.
- Assisted in the preparation of subdivision plans and legal descriptions.
- Maintained detailed field notes and survey records for project documentation.
- Participated in client meetings to discuss project scope and deliverables.
- Enhanced survey methods to improve accuracy and reduce project timelines.
