- San Francisco, CA

### SKILLS

- smart waste management
- project management
- technology implementation
- data analysis
- stakeholder collaboration
- training and development

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

**BACHELOR OF SCIENCE IN ENVIRONMENTAL TECHNOLOGY, UNIVERSITY OF INNOVATIVE SOLUTIONS, 2014**

### ACHIEVEMENTS

- Secured funding for a smart waste management initiative that reduced operational costs by 30%.
- Recognized as Employee of the Year for innovative contributions to waste management projects.
- Developed a best practices guide for technology integration in waste management.

Dynamic Senior Waste Management Manager with a focus on the intersection of technology and waste management. Over 8 years of experience leveraging cutting-edge technology to improve waste processing and recycling capabilities. Proven expertise in implementing smart waste management solutions that enhance operational efficiency and reduce environmental impact. Strong background in project management and stakeholder collaboration, enabling successful execution of innovative waste management initiatives.

### WORK EXPERIENCE

#### SMART WASTE MANAGEMENT PROJECT MANAGER

TechWaste Innovations

2020 - 2025

- Led the deployment of smart waste bins, increasing recycling rates by 45%.
- Collaborated with software developers to create an app for real-time waste tracking.
- Managed project budgets and timelines, ensuring successful project delivery.
- Trained staff on the use of new technologies and data management systems.
- Conducted pilot programs to assess the effectiveness of innovative waste solutions.
- Presented project outcomes and recommendations to stakeholders and city officials.

#### WASTE TECHNOLOGY ANALYST

EcoTech Solutions

2015 - 2020

- Researched emerging technologies in waste management and assessed their feasibility.
- Developed reports on technology trends and their potential impacts on waste processing.
- Collaborated with engineering teams to design efficient waste processing systems.
- Monitored project performance metrics to ensure alignment with sustainability targets.
- Facilitated training sessions for staff on new technologies and operational practices.
- Engaged with industry partners to explore collaborative waste management initiatives.
