EXPERTISE SKILLS

- Genetic Improvement
- Breeding Techniques
- Data Analysis
- Research Collaboration
- Training
- Livestock Management

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Animal Genetics, University of Science

MICHAEL ANDERSON

BREEDING PROGRAM MANAGER

A driven Sheep and Goat Farming Specialist with a focus on innovative breeding techniques and genetic improvement. Over 8 years of experience in managing breeding programs that enhance productivity and genetic diversity. Skilled in utilizing technology to analyze herd data and implement changes that result in measurable improvements. Experienced in collaborating with agricultural scientists to develop and test new breeding methodologies.

PROFESSIONAL EXPERIENCE

Genetic Solutions Livestock

Mar 2018 - Present

Breeding Program Manager

- Managed the breeding program for sheep and goats, focusing on genetic diversity and productivity.
- Utilized genetic analysis software to assess herd performance and breeding outcomes.
- Developed breeding schedules based on data-driven insights to optimize results.
- Conducted training sessions for staff on new breeding techniques and technologies.
- Collaborated with research teams on projects to improve livestock genetics.
- Implemented health screening protocols to ensure high standards of animal welfare.

AgriTech Institute

Dec 2015 - Jan 2018

Livestock Research Assistant

- Assisted in research projects focused on livestock genetics and breeding methodologies.
- Collected and analyzed data on herd performance for ongoing studies.
- Supported the development of educational materials for farmer training.
- Engaged in outreach programs to promote advancements in livestock management.
- Participated in workshops to share research findings with industry professionals.
- Maintained detailed records of research activities and results.

ACHIEVEMENTS

- Increased breeding success rates by 15% through innovative program adjustments.
- Published research findings in a peer-reviewed journal, contributing to the field.
- Developed a successful educational series on livestock genetics for local farmers.
