

MICHAEL ANDERSON

LEAD SHEET METAL FABRICATOR

PROFILE

Highly skilled Sheet Metal Fabricator with extensive experience in the automotive industry, specializing in the fabrication of components for electric vehicles. Proven track record of innovating fabrication techniques that enhance product durability and performance. Strong understanding of environmental regulations and commitment to sustainable practices in manufacturing. Exceptional abilities in project management, ensuring timely completion of fabrication tasks while adhering to budget constraints.

EXPERIENCE

LEAD SHEET METAL FABRICATOR

EcoAuto Manufacturing

2016 - Present

- Oversaw the fabrication of sheet metal components for electric vehicle production.
- Developed and implemented eco-friendly fabrication processes.
- Collaborated with design engineers to optimize component design for manufacturability.
- Managed project timelines and ensured on-time delivery of fabricated parts.
- Conducted training sessions on sustainable manufacturing practices.
- Reduced material waste by 20% through process improvements.

SHEET METAL TECHNICIAN

Auto Components Corp.

2014 - 2016

- Fabricated sheet metal parts for various automotive applications.
- Operated hand and power tools to shape and cut metal sheets.
- Ensured compliance with safety regulations during fabrication processes.
- Assisted in the development of new fabrication techniques.
- Maintained accurate records of production runs and inventory.
- Collaborated with quality assurance teams to meet production standards.

- San Francisco, CA

SKILLS

- Electric vehicle components
- sustainable practices
- project management
- cross-functional collaboration
- fabrication techniques
- quality assurance

LANGUAGES

- English
- Spanish
- French

EDUCATION

ASSOCIATE DEGREE IN
MANUFACTURING TECHNOLOGY, STATE
TECHNICAL COLLEGE, 2012

ACHIEVEMENTS

- Championed a project that led to a 25% increase in production efficiency.
- Recognized for innovative approaches to reducing environmental impact.
- Successfully launched a new product line that exceeded sales targets by 40% within the first year.
