MICHAEL ANDERSON

URBAN FORESTRY COORDINATOR

Innovative Silviculture Specialist with a robust background in urban forestry and landscape management. Expertise in integrating ecological principles with urban planning to enhance green spaces in metropolitan environments. Proven ability to assess urban tree health and implement effective management strategies that promote sustainability and biodiversity. Skilled in engaging with diverse stakeholders, including government agencies and community groups, to foster collaborative urban forestry initiatives.

PROFESSIONAL EXPERIENCE

City of Springfield

Mar 2018 - Present

Urban Forestry Coordinator

- Managed urban tree planting programs aimed at increasing canopy cover in city parks.
- Conducted assessments of tree species selection for urban environments based on resilience and biodiversity.
- Collaborated with city planners to integrate green infrastructure into urban development projects.
- Engaged community volunteers in tree care and maintenance initiatives.
- Utilized GIS technology to map and monitor urban tree populations.
- Developed educational materials on the benefits of urban forestry for public distribution.

Urban Green Initiative

Dec 2015 - Jan 2018

Silviculture Intern

- Assisted in the development of urban forestry management plans for local municipalities.
- Conducted surveys to assess tree health and provide recommendations for care.
- Participated in workshops to educate the public on tree planting and maintenance.
- Collaborated with local schools to promote tree planting events.
- Supported the development of a mobile application for urban tree identification.
- Collected data on urban flora for research on biodiversity in metropolitan areas.

ACHIEVEMENTS

- Increased urban canopy cover by 20% through targeted planting initiatives.
- Established a partnership with local schools to enhance environmental education.
- Received the City Council Award for excellence in urban forestry programs.
