### SKILLS

- agroforestry
- sustainable land use
- community engagement
- policy development
- research analysis
- training facilitation

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

**MASTER OF SCIENCE IN  
AGROFORESTRY, UNIVERSITY OF  
ILLINOIS**

### ACHIEVEMENTS

- Increased farmer adoption of agroforestry practices by 40% through targeted outreach.
- Recognized for developing a successful agroforestry model implemented in multiple regions.
- Published a research paper on the economic impacts of agroforestry in peer-reviewed journals.

### WORK EXPERIENCE

#### AGROFORESTRY SPECIALIST

Sustainable Agriculture Network

2020 - 2025

- Developed agroforestry models that integrate tree planting with crop production.
- Conducted training workshops for farmers on sustainable land management techniques.
- Collaborated with local communities to implement agroforestry practices that enhance biodiversity.
- Monitored project outcomes to assess the impact on soil health and crop yields.
- Utilized participatory research methods to engage stakeholders in project design.
- Presented findings at international conferences on sustainable agriculture.

#### RESEARCH ASSISTANT

Agroforestry Research Institute

2015 - 2020

- Assisted in the development of guidelines for integrating trees into agricultural landscapes.
- Conducted field research on the benefits of agroforestry systems for soil conservation.
- Analyzed data to evaluate the economic viability of agroforestry practices.
- Supported outreach efforts to promote agroforestry among local farmers.
- Contributed to reports on agroforestry policy recommendations for government agencies.
- Participated in community meetings to discuss agroforestry benefits and practices.
