## SKILLS

- Angular
- Ionic
- HTML5
- CSS3
- Git
- API integration
- user testing
- healthcare regulations

## EDUCATION

**BACHELOR OF SCIENCE IN HEALTH  
INFORMATICS, HEALTH UNIVERSITY**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Developed a patient engagement application that received recognition for innovation in healthcare technology.
- Improved user engagement metrics by 35% through iterative design and user feedback.
- Successfully led a project that streamlined patient communication, resulting in a 20% decrease in appointment no-shows.

# Michael Anderson

## HEALTHCARE APPLICATION DEVELOPER

I am a results-oriented Single Page Application Developer with over 6 years of experience in the healthcare industry. My work focuses on creating applications that improve patient engagement and streamline healthcare processes. I have a strong background in developing applications using Angular and Ionic, which allows me to build hybrid mobile solutions that cater to diverse user needs.

## EXPERIENCE

### HEALTHCARE APPLICATION DEVELOPER

HealthTech Innovations

2016 - Present

- Developed a single-page application for patient management using Angular, enhancing user satisfaction by 40%.
- Implemented Ionic to create a mobile-friendly version, increasing accessibility for users.
- Collaborated with healthcare professionals to gather requirements and design user-centric features.
- Integrated third-party APIs to streamline appointment scheduling and patient communication.
- Conducted user testing sessions to gather feedback and iterate on application functionalities.
- Maintained compliance with healthcare regulations and data security standards.

### WEB DEVELOPER

Wellness Web Solutions

2014 - 2016

- Created a single-page application for health monitoring using Angular, promoting user engagement.
- Worked closely with UX designers to enhance the user interface and experience.
- Participated in the integration of APIs to connect with wearable devices for real-time data.
- Conducted performance optimization, improving application load time by 30%.
- Assisted in troubleshooting and maintaining existing applications to ensure reliability.
- Documented features and functionalities for future reference and onboarding new team members.
